## We believe in using technology to modernize benefits & HR.

Until now, benefits & HR technology has been outsourced, expensive, and difficult to use. We put brokers in control of their clients' data, bringing the costs down so every employer can benefit from our easy-to-use platform.

## Differentiators

### Technology that doesn't break the bank

We believe you should be able to give your clients a best-in-class enrollment and HR technology for free.

### Control your livelihood

A third party should never get between you and your groups. Be in control of your data, branding, and most importantly, your customer service.

### No limits

Would you compromise which groups you target based on their size? Neither do we. Implement an unlimited number of groups regardless of size on Employee Navigator.
